

## Department of Art Syllabus

- I. ART 6432 *Graduate Sculpture IV*, 3 Credit Hours
- II. PREREQUISITES  
ART 6431
- III. TEXTBOOK  
None
- IV. COURSE DESCRIPTION  
This course consists of sustained practice and development of skill in special methods including welded metal forms, foundry operation and kiln construction. (Lab fee required)
- V. RATIONALE  
The primary aim of this fourth course in the 18 hour sculpture concentration, is to help the student with compositional studies that include more than one figurative form. As the student focuses on “group theme” assignments, other vital technical information and experiences will be provided related to metal casting, welding, and kiln construction, all of which are essential in ascertaining a minimum professional competence level in sculpture.
- VI. LEARNING OBJECTIVES AND OUTCOMES
  - A. To discern the nature of sculpture today, from Biblical and historical perspectives, and to have insight into the work and methods of sculptors past and present.
  - B. To have reverence for the work of the Creator in general and a better understanding of the tactile-visual senses enabling the work of the human hand in the modeling process.
  - C. To master sculptural skills which have origins in anatomical form, natural design, and the lived human experience, and to be prepared to create works which communicate a Christian worldview.
  - D. To actively participate in the creation of an original bronze sculpture using the traditional lost wax process of casting.
  - E. To produce three dimensional metal forms using acetylene cutting and welding methods of construction.
  - F. To research various methods of kiln construction and to take part in the design and creation of a low fire sculpture kiln as a team project.

- VII. COURSE TOPICS
- A. Communication in an art work beyond its aesthetic or formal structure
  - B. An emphasis on continued application of composition and design principles
  - C. Monumental sculpture
  - D. Relief sculpture in architecture
  - E. Lost wax process of casting
  - F. Acetylene Welding Techniques
  - G. Kiln construction

- VIII. INSTRUCTIONAL METHODS AND ACTIVITIES
- A. Demonstration and lecture
  - B. Individual and group instruction
  - C. Individual and group critiques
  - D. Individual and group evaluation
  - E. Research paper

- XI. EVALUATION
- See Department of Art Syllabus Addendum for Grading Scale and Evaluation.*

- X. LIST OF MATERIALS
- A. Clay and specialized clay; plasticine, and latex
  - B. Plaster mold related materials
  - C. Welding materials
