ASID Student Chapter

The MC American Society of Interior Designers (ASID) Student Chapter hosted a pizza party at the beginning of the semester to recruit student members and plan chapter events for the academic year. One of the events included a lunch and learn in November with Ron Carroway from Eykon Wallcovering Source. Also, student members plan to attend the upcoming South Central Chapter Career Day in Ruston, LA at Louisiana Tech University.

ASID Professional Awards

Three of MC's interior design faculty received awards at the ASID South Central Chapter Awards Gala in New Orleans, LA this fall. Mrs. Baumann and Mrs. Berdami received "Presidential Citations" for their service and Mrs. Lantz received "Emerging Professional of the Year." Mrs. Baumann serves as the South Central Chapter Communications Director and Mrs. Berdami recently ended her two year term as Professional Development Director. Mrs. Lantz serves as the MS District Finance Chair.

The Wingard Home Christmas Dinner

Each year, Kappa Pi (Art Department Honor Society) hosts a Christmas dinner in Anderson Hall for the Wingard Homeless Shelter residents. The ASID Student Chapter participates by serving dinner. This year, Mr. Gregory delivered a devotional and Santa came to visit the children. It was a fun night!

Featured Project

For the Steelcase NEXT project, ID V students were challenged to create a co-working office space. The client, NEXT, is a forward-thinking, progressive co-working organization at the forefront of the shift in how people choose to work today. The project was created to help students think of new and innovative ways to meet the needs of today's workers. Because of the change in the way we work - freelance work and small business formation are surging and the trend is only projected to accelerate - the environments we work in are changing too. People don't always want, or need, a full time office space to fulfill their work duties. This new type of office worker is redefining the workplace with a new set of needs, behaviors, and values. The NEXT project required a space designed to attract these contingent workers (independent freelancers, contractors, and 'solopreneurs') by giving them a place to come together in a co-working environment. The Fall 2015 ID V class, taught by Mrs. Melessa Redditt, came up with some great solutions for this project, and they learned valuable information about the office space of the future! Project images on next page.

Coming up...

Students enrolled in ART 272 Interior Design II and ART 372 Interior Design IV will be traveling to Chicago next semester! The itinerary includes a variety of attractions. All interior design students are invited to join us! Let Mrs. Berdami know if you are not enrolled in ART 272 or ART 372 and would like to participate.
